

A stylized logo of a pelican in its nest, rendered in shades of blue. The pelican is shown in profile, facing right, with its wings spread. Below it is a large, inverted triangle representing the nest. The entire logo is set against a background of a blue gradient that transitions from a lighter shade at the top to a darker shade at the bottom.

# Phase 1: Customisation

1

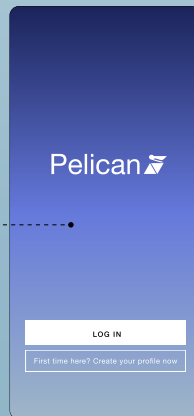

Brand colour palette OR styling sheet:  
Primary, secondary and background colours (in hex)

	Item	What it is	Format Required	Requirements (Very important)
2	App icon	Appears on the handset. It is the icon which you select to open the App on your phone.	1 x SVG 1 x PNG	Must be a square icon (i.e. same width and height)
3	Splash screen logo	Appears on the splash screen.	1 x SVG 1 x PNG	The splash screen appears when a user opens the app for the first time. We are bound by Android's restrictions for all platforms (Please see next slide for more info). In short, the splash screen logo should be able to fit in a square box.
4	Login page logo	Logo that appears when app has loaded and user has not signed in	1 x SVG 1 x PNG	Logo must be able to fit neatly in centre of screen and look good on top of the login page wallpaper
5	Login page wallpaper	Background that appears when app has loaded and user has not signed in	1 x SVG 1 x PNG	High resolution with aspect ratio of 19.5:9 for modern phones. Plain backgrounds work best (i.e. no elaborate patterns)
